

GREAT OUSE MARATHON COURSE RECORDS FOR SENIORS UP TO 2017

The introduction of the new Competition Framework and PRIs in 2018 means that the old Senior categories of Novice, IM3, IM2, etc are no longer applicable, and we have had to introduce a new basis for senior records from 2018 based on PRIs.

The listing below shows records achieved by senior crews between 2009 and 2017 by the old status categories.

Records for Juniors and Masters are based on age bands, so are not affected by the introduction of PRIs, and have been carried forward to the current years records table.

Race weather conditions (from the weather station at RAF Mildenhall, 9 miles east of Ely)

2009 wind west to south-west; 11 to 14 mph; cloudy; 17c
 2010 wind south-south-east to south east; 10 to 15mph; scattered cloud; 19c
 2011 wind south to south-south west; 7 to 11mph; scattered cloud; 19c
 2012 wind west to west-south-west; 6 to 10 mph; bright overcast; 17c
 2013 wind west to south west; 5mph; overcast, becoming sunny; 18c
 2014 wind north, 6mph; scattered clouds, clearing to become sunny; 16c > 18c
 2015 wind north to north west, 8 to 12mph, sunny, 14c to 18c
 2016 wind westerly, 21 to 25mph, gusting 31mph; 18c
 2017 wind SSE, 13 to 14mph, gusting 15 to 19mph, 18c. Sunny but clouding over

The first half of the course is generally South-South-East, the second half generally South-South-West.
 So any wind with a southerly component feels like a head wind!

year	crew name	club	cat	time
Senior men
