

GREAT OUSE MARATHON COURSE RECORDS TO 2018

The introduction of the new Competition Framework and PRIs in 2018 means that the old Senior categories of Novice, IM3, IM2, etc are no longer applicable. The following system is used from 2018 onwards:

1. Masters and Juniors

Records for Masters and Juniors continue by age band as before, and existing records are carried forward from previous years.

2. Senior crews

From 2018, crews now have a "Crew Ranking Index" (CRI - which is the combined PRI of all rowers). The old record categories of Novice, IM3, IM2 etc can no longer be applied.

In the spirit of the Competition Framework which seeks to match crews with comparable ability based on their CRI, we are offering to record record performances for Seniors in the range of CRI bands listed below. The bands are intended to provide similar opportunities for records as the old bands of Novice, IM3, IM2 etc.

1x	2x/-	4's	8's
CRI up to 25	CRI up to 50	CRI up to 100	CRI up to 200
26 to 50	51 to 100	101 to 200	201 to 400
51 to 200	101 to 400	201 to 800	401 to 1600
201 to 500	401 to 1000	801 to 2000	1601 to 4000
over 500	over 1000	over 2000	over 4000

The historic records for seniors under the old system can still be viewed on the club website.

Race weather conditions (from the weather station at RAF Mildenhall, 9 miles east of Ely)

2009 wind west to south-west; 11 to 14 mph; cloudy; 17c
2010 wind south-south-east to south east; 10 to 15mph; scattered cloud; 19c
2011 wind south to south-south west; 7 to 11mph; scattered cloud; 19c
2012 wind west to west-south-west; 6 to 10 mph; bright overcast; 17c
2013 wind west to south west; 5mph; overcast, becoming sunny; 18c
2014 wind north, 6mph; scattered clouds, clearing to become sunny; 16c > 18c
2015 wind north to north west, 8 to 12mph, sunny, 14c to 18c
2016 wind westerly, 21 to 25mph, gusting 31mph; 18c
2017 wind SSE, 13 to 14mph, gusting 15 to 19mph, 18c. Sunny but clouding over
2018 wind SSE 5 mph, 22c, sunny

The first half of the course is generally South-South-East, the second half generally South-South-West.
So any wind with a southerly component feels like a head wind!
